

Benefits

The Problem: Finding the exact egress gate you need at the last minute is a real pain—holding projects up because of custom design, engineering, architect approval, fabrication, installation, and inspection approval. EgressGate is Architect Approved and Ready To Install.

EGRESSGATE IS MADE FOR CONSTRUCTION PROFESSIONALS

EgressGate is designed for commercial construction, with installers in mind. Offering construction professionals and builders a quick solution when a code required egress barrier is required in a stairwell.

ADJUSTABLE DESIGN AND UNIVERSAL MOUNTING TO ELIMINATE CUSTOM FABRICATION

The simple design allows for adjustable width, any swing direction, and universal mounting. The gate fits most applications out of the box.

EGRESSGATE IS MADE FOR CONSTRUCTION PROFESSIONALS

It's important to note, not all install conditions are the same. While this gate fits most applications, on-site modifications may be needed. EgressGate is designed to be easily modified by an experienced ironworker.
