KEY PRODUCT INFORMATION

Works with electromagnetic holds tied to fire alarms. Retrofit to stop

- Extendable gate width (fits 40" to 60" wide openings out of the box).
- Symmetrically designed (flip or mirror to achieve swing in any direction).
- Spring-loaded – self-close, self-stops.
- Tamper Proof – made of SCH. 40 steel pipe and ASTM A36 Steel Plate and A500 Grade B Tube.
- Designed to attach to a metal rail post or the wall: CMU, concrete, stud walls, metal, wood, posts, railing.
- Standard mounting hardware included (3/8" diameter screws and anchors).
- Painted with red shop primer, ready for final paint coat to match the rail (after install by others).
- Includes ship loose adjustable stop plate.
- Can be modified with basic installation tools.
